

Specifications Altered:Nozzle Dome®

Product Name	Altered:Nozzle
Typ/Modell	Single Dome®
Artikel-Nr.	AN1002-5
Product picture	
Usage	The Altered:Nozzle Dome® is optimized for public areas where you need an even higher efficiency but still with maximum savings. The Dome-Technology creates a water dome that diffuses in a water spray, saving you 96% compared to standard taps. This gives you a full experience with only 0,4 Liter/Minute. Works at pressures down to 1.5 bar. Optimal also for sensor taps.
Savings	96 % Water
Handle	Chrome
Dimensions/adapters	Fits Standard (20,8 mm), Junior (18,1 mm) and Tom Thumb (15mm) sized taps (Inner socket dimension).
Water pressure	22-87psi / 1,5-6 bar
Notice	Not suitable for pressureless water systems. Remove restrictor for pressures below 3 bar. Only supports fittings with removable aerators, does not work with sealed aerators.
Flow Rate (3 bar pressure)	0,4 liter/minute
Water temperature	max. 89 ° C / 192 ° F
Material	Lead Free Brass (Chromed handle)
Filter	Metal Mesh 0,4 mm
Warranty	Two (2) years from the date of purchase
Made in	Sweden
Patent	Pending
EAN Code	7350004060023
HTS Code	8481.80.11.90
Classification	
Package contents:	A: Nozzle B: Adapter (Standard) C: Rubber/Metal Gasket (Standard) D: Adapter (Junior) E: Adapter (Tom Thumb) F: Gasket (Tom Thumb) I: Protection Ring J: Hex Key Instruction / Booklet
1 Box / 5-Pack Industrial packaging	
Dimensions	22 x 14 mm (Ø/H)
Packaging Dimensions	170 x 180 x 22 mm (W/D/H)
Total Weight incl. Packaging	Box 396 Gram
Packaging units	5 pieces per pack
Master Carton	TBD
EUR-Pallet	TBD

Installation

Retrofits into your existing tap. Unscrew your existing aerator and insert the Altered:Nozzle.

Warranty / Cleaning

Warranty 2 years from date of purchase

If the product is defective, take the product to the place of purchase. As a customer you must be able to confirm the time of purchase by presenting a receipt or a copy of the invoice for the delivery of the product in question.

Warranty: two (2) years from the date of purchase. The warranty applies only if the nozzle has been correctly installed and used.

The warranty does not cover damage from freezing or damage and functional defects arising from impurities in the water. Nor does the warranty apply for defects caused by improper cleaning (scrubbing or use of abrasive/corrosive cleansers). Defects from normal product wear, faulty installation, incorrect use, or failure to follow installation and service instructions shall not be compensated. The warranty does not cover costs for third parties or for any costs other than for the delivered product. Damages caused by stress corrosion as a result of water conditions or the surrounding environment, or because of faulty installation, shall not be included in product liability.

Cleaning and maintenance

Use a soft, damp cloth and a small amount of dishwashing liquid for daily cleaning or when needed. Never use abrasives, steel wool, or harsh cleansers (for example, for lime deposit removal or polishing, alkaline cleansers, or cleansers containing alcohol). Rinse with water and dry/polish with a clean, dry cloth. We also recommend that you remove the nozzle from the tap now and then and clean it thoroughly. If there are lime deposits on the nozzle, use a small amount of vinegar diluted with water to gently remove them. Rinse afterward using only water. Installation must be performed in accordance with all applicable local regulations for building / construction and for water systems. If you are unsure, contact a professional. In all water systems, it is very important to ensure that hot and cold water maintain the correct temperatures and that the systems and its components have been correctly installed.

COMING SUMMER 2018

Altered:Soap

LUXURY WITH LESS

The Altered:Soap is developed to work in perfect balance with the Altered's different water saving technologies. It is a rich, luxurious and eco-friendly foam soap that gently cleans your hands and easily rinses off. Leaving your hands smooth, purified and refreshed and with a sent of Sweden.

THE FOAM

This foam creates a soft fluffy and rich feeling in your palm on application. Rinsing is easy and leaves a very soft and moisturized touch afterwards. Foaming the soap means a lot less soap is used. Only using what you need. This means your soap will last longer.

THE INGREDIENTS

Only the best ingredients are used to create the Altered:Soap. Natural and eco-friendly for you and the environment.
