Housing	robust housing and silicone mat on base	
Operation	with included USB cable	
Working Voltage	DC 5V	
Power	2W	
Tank Capacity	320 ml	
Spray/Mist Capacity	25-35 ml/h Duration of spray/mist mode: over 10 hours Intermittent spray/mist mode: over 20 hours	
Operation	with included USB charging cable via USB interface, PC, Notebook, Powerbank or USB 2A Adapter	
Material	ABS / PP / Electronic components / Silicon	
Delivery	1 USB Air Humidifier GO-WTY1 1 USB Fan 1 USB Light 1 USB charging cable, 1m 1 Cotton Swab 1 Instruction/Manual	
Dimensions	138.8 x 93 x 93 mm	
Dimensions Packaging Single Box	155 x 94 x 94 mm	
Weight	155 gr	
Weight incl. Packaging	255 gr	
Cable length	1 meter	
Master carton	60 pieces	
Dimensions/Weight	Masse 49.5 x 40 x 49 cm, N.W. 15.5 kg / G.W. 16.5 kg	
Manual	English, Chinese (Instructions in packaging) / German, English (online)	
Warranty	1 year	
EAN Code GO-WTY1-W (white)	7640117141147	
EAN Code GO-WTY1-B (blue)	7640117141154	
EAN Code GO-WTY1-P (pink)	7640117141161	
HTS Code	8414.51.91.00	
Origin	Shenzen, China	
Classification / Standards		

## Operation Instructions

### Spray/mist function and nightlight

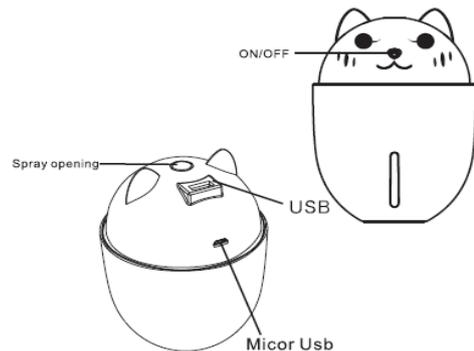

Click for the first time to turn on the constant spray/mist; click twice to turn on the intermittent spray/mist (spraying for 3 seconds and stopping for 3 seconds); click for the third time to turn off the spray/mist mode.

Night light with USB operation: Press and hold the button for about 1.5 seconds to turn on the night light and USB output; press and hold the button again for about 1.5 seconds to turn off the normal USB output for the night light.

### Anti dry burning function

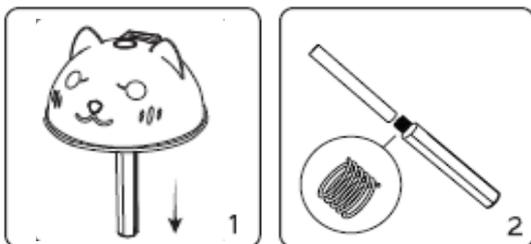

The humidifier has an "anti dry burning" function: automatic switch-off in continuous spraying function after 8 hours, automatic switch-off in intermittent spraying function after 12 hours.

## Installation

Turn counterclockwise and unscrew the top cover. Fill the tank with water (320ml). Unscrew the top cover clockwise and connect the power supply (USB cable). Click on the button (nose) to start the humidifier.

## Replacement of cotton swab

1. Put out the cotton swab tube to replace the cotton swab.
2. Pay attention to the bottom spring when replacing the cotton swab.

## Attention!

Please fill in water before use. Do not use humidifying function in case of water shortage.

Small amount of flavor is allowed and water-based aromatherapy water is recommended. No oily essential oil can be added to avoid oil blocking the function of atomizing blade.

The spray of this product is equipped with the function of automatic power off. When the spray time is up, the product will stop spraying automatically. If you want to continue to use, please observe the water in the tank first and then press the function key to start.

When cleaning the product, please do not rinse it directly under the faucet to avoid short circuit. It is recommended to wipe with a soft cotton cloth.

Do not put product into or near fire in order to avoid fire and explosion hazard.

This product can not be used alone for children.

## Cleaning tip of the steam outlet (Spray Jet)

Please do not use conventional and aggressive descaling agents. This will cause the connections, cables and electronics to corrode.

Do not pour water or liquids directly into the Spray Jet (steam emission). This will damage the electronics.

**TIP:** Only clean the Spray Jet with a little ordinary vinegar. Moisten a cotton swab with a little vinegar (not dripping wet) and carefully clean the platelet until there is no lime residue left. Works perfectly and the Spray Jet has its full steam power again. Clean the Spray Jet regularly and carefully to remove lime residue.
