

LY-Y3 Desk Lamp Humidifier

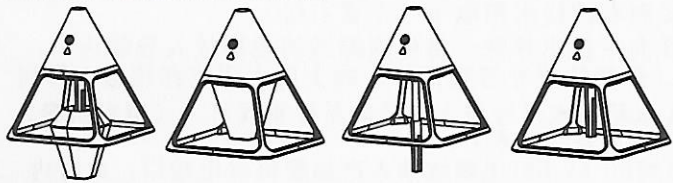

Specifications

Working Voltage: DC5V
Power Interface: Micro USB
Working current: 1A
Rated Wattage: 5W
Water Volume: 140ML
Spray Volume: 35ML/H
Light Source: 8pcs LED
Ra : ≥ 90
CCT: 2700-6500K
Lumens: ≥ 40 Lm

Product Drawings

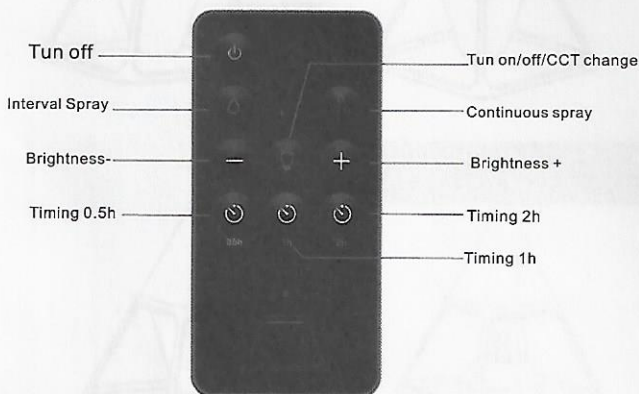

Instructions

1. Take out the cotton stick to soak for 5 minutes until it is completely drenched, otherwise the spray effect will be affected. (Cotton stick*2, one for spare)
2. Loosen the water tank to the right and take it off (tighten left and loosen right)
3. Pull down the catheter, then put the soaked cotton stick into the catheter (Put the spring at the bottom of catheter), and firmly upward fix it on the top cover.
4. Install the water tank parallel upward and tighten it to the left. (Leave space to avoid any water overflow)
5. Connect the DC 5V USB power cord to activate the product. Use the touch switch or remote controller to start till "Di" response.
6. Touch switch:
 - 6.1. Press it to turn on/off and change CCT, cycle in order: turn on (White)-Cool White- Warm White-turn off.
 - 6.2. Double-click to turn on/off the sprayer
 - 6.3. Long-press to be dimmable, brightness will be fixed after loosen

7. Remote controller:

- 7.1. Please remove the insulating sheet from the bottom before use.
- 7.2. Please point to the triangular receiver. If succeed, "Di" response will be sent out.
- 7.3. Control distance range ≤ 5 m.
- 7.4. Diagram as below for reference.

Attentions

Whole product :

1. Do not tilt or invert the water tank when in water state, to avoid water backflow or overflow
2. Do not use the sprayer without water, to avoid any failure of the spray

Spray exit:

1. Please keep the exit clean and free of impurities.
2. Please use cotton swabs or paper towels to clean the surface if any water drops or sundries.

3. Please keep enough water in the tank when using spray.

Cotton sticks:

1. The cotton sticks must be fully soaked before your first use. Otherwise, the humidifier cannot spray.
2. If the humidifier is not used for a long time, soaking is also required before use.
3. The cotton sticks will be damaged if to use humidification function without water.
4. In case of no spraying or less spraying, please check if the two ends of the cotton stick are in coking state. If so, please change one end or replace the cotton stick.

Add/change water:

1. It is recommended to add pure water to prolong the humidifier lifespan.
2. Do not use water with impurities. It is not recommended to add any other liquids (such as essence) to the water.
3. Please do not fully filled with water. Leave space to avoid any overflow.

Power interface:

1. Please use the matched power cord or any good quality Micro-USB power cord. Poor quality power cord may cause the unstable voltage

2. After power on, please use remote controller or touch switch to operate the humidifier Remote controller:

1. Please change the battery timely when it runs out of power
